RNJP EXAM BOARD

The Board of Examiners is a subcommittee of the RNJP Inc. National Council. Under Council guidelines, the Board consists of up to eight members, depending on the need at any particular time. All Board members must hold a RNJP Nadi Pundit and an AAT (RNJP).

The RNJP National Exam Board

- ✓ Sets and marks the RNJP exams.
- ✓ Determine the RNJP Practitioner Qualification,
- ✓ decides on examination procedure,
- ✓ Provides syllabi for teachers and students,
- ✓ Aims to set a standard for the education of astrologers in India.

The National Exam Board comprises:

Director

- ✓ The Director administers all aspects of the day to day running of the exam system and acts as treasurer for the Board. This position does not act as an examiner (i.e. set or mark papers) but rather oversees and supports Exam Board members, coordinates exam setting and marking, and liaises with candidates.

Board Members

- ✓ Board members support the Director, set and mark examinations, collaboratively modify Exam syllabus, and collectively determine the future direction of the RNJP Exam system and Exam Board activities.

HOW THE BOARD OPERATES

The Exam Board aims to be financially self-sufficient. Exam Board members, like all other office holders in the RNJP, are volunteers whose primary interest is advancing the professionalism of Astrology. Fees are paid to Board members for the setting and marking of exams. Set fees for marking are based on the number of papers marked by an examiner or specialist marker, with a percentage of the candidates' fees paid to the Director. Exam Board members are reimbursed for expenses incurred in their role as Exam Board members.

The Exam Board meets twice a year. A report is prepared by the Director for presentation at the annual National Council meeting in January.

STEP-BY-STEP GUIDE TO SIT THE EXAMINATIONS

- What to consider before applying to sit an exam
- How to apply
- What happens after the exam period has been completed.

1. Download and print the Exam Syllabus from within this document.

2. Go through Syllabus very carefully, identifying what you do and don't know.

3. Begin to study the topic areas of the Syllabus that you have identified in step 2, in which you feel your knowledge is lacking. This can be done by:

a. Buying or borrowing books on these topics (from libraries or friends). Also consider the resources of your State Astrological Association (books, tapes or CD's etc). A useful Resource Guide is also listed on the RNJP Website under the headings Exams:
<http://www.astrology-training.com/rnjp-exam-system/>

b. Join or form a study group in your area.

c. Find a teacher. The State Associations and the RNJP website are good resources for accessing professional Astrology Teachers throughout India.

4. Download and review past exam papers and Exceptional Essays from the RNJP website to identify examples of standards that Examiners are seeking.

5. Download the essay writing support document and the essay marking guidelines from the RNJP website

Once you feel you have competency in a particular exam module's technical area, plus a competency in essay writing skills, then apply for the examinations.

6. Download and submit an Exam application form (available approx. one month before exam date) from the RNJP Website here: <http://www.astrology-training.com/rnjp-exam-system/>

7. Submit your completed application form and your Exam application fee to the Director by the due date.

8. Once your application form is received, and prior to the Examination date, the Exam Board Director will advise you of the exam details and your candidate number. For the Calculation Exam, the exam venue details will be provided. The Calculation exam is a 3.5 hour supervised exam.

9. For essay type exams (Interpretation, Relationship & Specialist Techniques and Dynamic Exams), the Exam paper will be emailed. These exams are a 5 week (at home) Open Book exam.

10. Utilize the full (5 week) time frame to complete the Essay type exams (Interpretation, Advanced & Dynamic Modules) to properly prepare, research and write the essays. There is a significant commitment required. All statements made in your essays must be supported by Astrological reasoning.

11. Completed Essays are to be returned to the Director by email, postmarked on or before the last day of the 5 week examination period.

12. Results will be sent by email within 6 weeks of the closing date of the Examination. Contact the Director if results not received within that six week period.

Criteria common to the essay styled exams

Interpretation, Dynamic and the Relationship & Specialist Techniques Exams

- A candidate's name and other identifying statements must not appear on any of the charts submitted to maintain candidate anonymity.
- Computers may be used, yet the software programs used must be stated.
- Each written answer must comply with the maximum word limit with a 10% variation. The word limit applies to the essay's Introduction, body and conclusion, this includes any footnotes, references or appendices. Any title pages, charts, tables, and the bibliography are not included in the word limit. If the candidate goes over the word limit the extra words will not be read and thus cannot be awarded marks.
- The candidate is assessed on their astrological knowledge, and consideration is given to their ability to write a properly structured, succinct and academic work, which later may (with consent) be published in the RNJP Journal.

- Any cheating or plagiarism will result in failure and the candidate will be no longer able to sit for the RNJP exams.
- All questions are to be kept separate, and two copies of each are to be sent to the Director, postmarked or emailed no later than the return date given. One sent copy must be a hard copy. A personal copy must be kept for reference.
- Extension of time. An extension of a maximum of one week can be granted in the first instance at the discretion of the Director. This will only be granted on the grounds of personal hardship of an 'unforeseen' nature on condition that a request from the candidate is received prior to the published mail back date.

“Counselling Orientation” (defined)

Where Exam questions refer to a counseling setting this is to be defined as:

- The goal is to provide insight into the potentials, challenges and nature of the client's chart whilst also providing hope and direction for future change. This may involve addressing psychological complexes, shadow issues, wounds and defenses that could be operating outside a client's current level of awareness. The goal is to empower the client to understand their experiences so as to encourage the client toward their optimal growth and development. The natal chart is a map of the psyche and as such should be approached with respect, compassion, care and patience. Remember **“Do No Harm”**.

INTERPRETATION EXAM

For the purpose of the RNJP Interpretation exam, Interpretation is considered to be the ability to delineate and synthesize the components of a chart and communicate the information in a clear and constructive manner.

The candidate must be able to interpret both adults' and children's charts, within a variety of questions and issues in a manner appropriate to the age.

This is a five **week 'open book' (home based)** exam emailed to candidates in February each year.

Exam date and exam application forms are available from the RNJP Web site at

<http://astrology-training.com/RNJP-exam-timetable/>

The closing date for applications for this assessment will usually be 10 days prior to the exam date. Due to the extra administrative workload in processing late applications, a late lodgment fee of 1000 INR will be payable for late applications.

The exam is in two sections: (updated May 2016)

Section 1 is designed to examine delineation techniques and your knowledge of interpretation components. However, this section is designed to examine more than your ability to identify key technical components and the use of correct terminology.

The examiners are looking for your ability to "synthesize". Synthesizing means integrating the planets, Zodiacal signs, houses, ruler ships, depositors, aspects, and planetary motions as related to the question. Direct references and quotes are not required in this section, as the examiners prefer to hear your voice and insights. Your answers need to be relevant to the age of the person and answers should be objective and not include your own personal bias or provide advice.

These questions require a counselling perspective. The goal is to provide insight into the potentials, challenges and nature of the client's chart whilst also providing hope and direction for future change. This may involve addressing psychological complexes, shadow issues, wounds and defenses that could be operating outside a client's current level of awareness. The goal is to empower the client to understand their experiences so as to encourage the client toward their optimal growth and development. The natal chart is a map of the psyche and as such should be approached with respect, compassion, care and patience. Remember "Do No Harm".

- **Must pass two of the three answers**
- **40% of overall mark**

Section 2 is designed to examine more in depth delineation techniques and your knowledge of interpretation of a chart as a whole.

The examiners are looking for your ability to "synthesize". Synthesizing means integrating the planets, Zodiacal signs, houses, ruler ships, depositors, aspects, and planetary motions as related to the question. Your answers need to be relevant to the age of the person and answers should be objective and not include your own personal bias or provide advice.

© 2015 RNJP INC. BOARD OF EXAMINERS

Relevant references and quotes may be used in this section, however the examiners prefer to hear your voice and insights rather than multiple quotes.

These questions require a counselling perspective. The goal is to provide insight into the potentials, challenges and nature of the client's chart whilst also providing hope and direction for future change. This may involve addressing psychological complexes, shadow issues, wounds and defenses that could be operating outside a client's current level of awareness. The goal is to empower the client to understand their experiences so as to encourage the client toward their optimal growth and development. The natal chart is a map of the psyche and as such should be approached with respect, compassion, care and patience.

The most appropriate method will depend on the type of submission and the expertise available at any particular time.

An initial submission of the proposed Nadi brahma must be made on the appropriate application form (available from the Exam Board Director) together with a non-refundable fee of 5000 INR.

Upon submission of the work based on the assessment of the RNJP Exam Board as to the depth and complexity of the marking required a minimal fee of 10000 INR per applicant is required. This is to cover costs of paying a subject expert to mark the submission (no matter where in the world that expert may reside).
